Summary

Graduate student with a background in computer science and history and hands-on experience in software development, quality assurance, user testing, and market research. Has built applications independently and in professional settings at Tencent and Klipsch. Comfortable taking work from prototype through testing and data-driven iteration, and presenting results to external partners.

Education

Skidmore College | Saratoga Springs, New York
Bachelor's in History | 01/2024 || Bachelor's in Computer Science | 01/2024
Rochester Institute of Technology | Rochester, New York
Masters in Game Design

Professional Experience

Tencent | QA Product Division
Intern | Jul 2025 – Aug 2025

• Supported QA and user-testing operations for international products, including WeTest (https://www.wetest.net).
• Independently built a mobile application used to demonstrate the division's testing services to external partners.
• Assisted in test plan design, data collection, and feedback tracking across multiple development cycles.

Corner Seat Studios | Saratoga Springs, New York
Website:https://cornerseatstudios.itch.io
Founder & Lead Developer | 03/2020 - Present

• Co-founded an independent development studio; build and publish projects under fixed deadlines in recurring GMTK Game Jam competitions.
• Responsible for programming, interaction design, user experience, and overall project direction.
• 2023 GMTK Game Jam entry ranked among the top 100 most-rated submissions.

Klipsch | Indianapolis, Indiana
Website: https://www.klipsch.com
Engineering Intern | 06/2022 - 08/2022

• Developed a proof-of-concept feature for the Klipsch Connect app (500+ App Store ratings).
• Built tools using pink noise generation and proprietary algorithms to calibrate audio settings to individual room acoustics.

Rayleigh Labs | Shenzhen, Guangdong
Market Research Intern | 06/2020 - 07/2020
Public Relations Officer | 01/2024 - 07/2024

• Conducted a market study on consumer preferences for gaming audio equipment.
• Prepared and presented a report on audio equipment trends to inform product development.
• Research contributed to the launch of the OXS soundbar, retailing at $249.99 on Amazon.
• Conducted post-launch customer surveys on market reception of the OXS soundbar.
